www.supershowplatform.com

Competition Entries

- Enter competitions online through a simple-to-use web-based system, which guides the entrant through Class registration with drop-down options to ensure a simple and clear online registration process
- Competitors can view their account and entries online
- Add multiple entries to one order/payment
- Competitors can pay entry fees online
- Administrators can manually add entries through the admin panel for walk in/postal entries and/or payments received by credit card, cash, cheque and bank transfer
- Export data to CSV format for use in Excel
- Save entry and return to complete later

Top Features For Admins

Schedule of Competition Classes

- Easily manage class details with category, class number, class name, sponsor, prizes, rules and entry fee
- Easily search classes and competition entries
- Control details outputted to class schedule and catalogue for use in professional print i.e. Category description, class detail, numbering, rules, pre/post notes and more.

Competition Results

- Enter results live through mobile phone/tablet with photos and class report
- Export competition results to CSV format for use in Excel
- Display competition results to formatted PDF report
- Results displayed directly on website

Payout Management

- Create payout reports, letters and labels
- Export winners details & prize money for mail merge
- Electronic Fund Transfer (*Grade 1*) System eradicates postal & cheque costs by bulk-exporting CSV file for EFT from your bank

Competition Management System

Categories & Classes

- Manage competition sections, categories and classes
- Display and search class details on website, even when entries are closed

Sponsors

- Manage class sponsors with name, contacts, logos, description, web link and display on schedule, programme & website (details optional)

Prizes

- Manage prizes with 1st, 2nd, 3rd, etc. placings and associated prizes, trophies and prize funds

Competition Programme

- Simple report feature to create real time list of entries.
- Export data to CSV format for use in Excel

Reporting

- Run reports to give live information to show organisers and to improve overall competition management and communications
- Create custom reports to output regularly required information by show committee for all elements of competition management
- Create custom online views with filtering for show committee members and heads of section to have up to the minute access to view competition entries etc.
- Create payment reports by customer or payment type, including credit card, cash, cheque, & bank transfer

Schedule & Catalogue Production

- Integrated system to automate, where possible, the production of Class Schedule & Show Catalogue

Advanced Elements (*Grade 1*)

- Manage exhibitors that wish to avail of animal accommodation with space and assigned areas
- Exhibitor fee deduction system

 VIRTUAL 

SuperShow
